

APPENDIX A

References

A-1. Required Publications

a. Department of the Army.

ER 385-1-92

Safety and Occupational Health Document Requirements for Hazardous, Toxic, and Radioactive Waste (HTRW) and Ordnance and Explosives. March 1994.

ER 385-1-92, Appendix B

Safety and Health Elements for HTRW and OEW Documents.

ER 1110-1-263

Chemical Data Quality Management for Hazardous Waste Remedial Activities.

EP 415-1-261

Quality Assurance Representative Guide.

EP 1110-1-27

Operations and Maintenance of Extraction and Injection Wells.

EM 200-1-2

Technical Project Planning Guidance for HTRW Data Quality Design.

EM 200-1-3

Requirements for the Preparation of Sampling and Analysis Plans.

EM 200-1-6

Chemical Data Quality Assurance Guidance for HTRW Sites.

EM 1110-1-4000

Monitor Well Design, Installation, and Documentation of HTW Sites.

EM 1110-1-4001

Soil Vapor Extraction and Bioventing.

DG 1110-1-1

Design Guidance for Ground Water/Fuel Extraction and Ground Water Injection Systems.

EM 1110-1-4005

31 Jan 08

UFGS 01351

Safety, Health, and Emergency Response (HTRW/UST).

b. Department of Energy (DOE)

EM-0135P

VOCs in Non-Arid Soils Integrated Demonstration: Technology Summary, February 1994.

c. Department of Navy.

USEPA. *Steam Injection for Soil and Aquifer Remediation*. EPA/540/S-97/505, 1998.

USEPA (1997)

USEPA. *The Rapid Optical Screening Tool (ROST™) Laser-Induced Fluorescence (LIF) System for Screening of Petroleum Hydrocarbons in Subsurface Soils*. EPA/600/R-97/020. National Exposure Research Laboratory, Las Vegas, NV, 1997.

USEPA (2000)

USEPA. *Guidance on the Data Quality Objectives Process*. EPA/600/R-96/055, 2000.

e. American Society for Testing and Materials (ASTM).

D422-63 (1990)e

Standard Test Method for Particle-Size Analysis of Soils.

EM 1110-1-4005
31 Jan 08

D2216-92

Standard Test Method for Laboratory Determination of Water (Moisture) Content of Soil and Rock.

D2325-68(1981)e1

Standard Test Method for Capillary Moisture Relationships for Coarse- and Medium-Textured Soils by Porous-Plate Apparatus.

D2488-93

Standard Practice for Description and Identification of Soils (Visual-Manual Procedure).

D2850-95e1

Standard Test Method for Unconsolidated, Undrained Compressive Strength of Cohesive Soils in Triaxial Compression.

D4043-91

Standard Guidance for Selection of Aquifer-Test Method in Determining of Hydraulic Properties by Well Techniques.

D4044-91

Standard Test Method (Field Procedure) for Instantaneous Change in Head (Slug Tests) for Determining Hydraulic Properties of Aquifers.

D4050-91

Standard Test Method (Field Procedure) for Withdrawal and Injection Well Tests for Determining Hydraulic Properties of Aquifer Systems.

D4104-91

Standard Test Method (Analytical Procedure) for Determining Transmissivity of Nonleaky Confined Aquifers by Overdamped Well Response to Instantaneous Change in Head (Slug Test).

D4105-91

Standard Test Method (Analytical Procedure) for Determining Transmissivity and Storage Coefficient of Nonleaky Confined Aquifers by the Modified Theis Nonequilibrium Method.

D4106-91

Standard Test Method (Analytical Procedure) for Determining Transmissivity and Storage Coefficient of Nonleaky Confined Aquifers by the Theis Nonequilibrium Method.

D4750-87(1993)e1

Standard Test Method for Determining Subsurface Liquid Levels in a Borehole or Monitoring Well (Observation Well).

D5220-92

Water Content of Soil and Rock In-Place by the Neutron Depth Probe Method.

D5269-92

Standard Test Method for Determining Transmissivity of Nonleaky Confined Aquifers by the Theis Recovery Method.

D5270-92

Standard Test Method for Determining Transmissivity and Storage Coefficient of Bounded, Nonleaky, Confined Aquifers.

D5299

Decommissioning of Ground Water Wells, Vadose Zone Monitoring Devices, Boreholes and Other Devices.

D5314-92

Standard Test Methods for Soil Gas Monitoring in Vadose Zone.

D6771-02

Standard Practice for Low Flow Purging and Sampling for Wells and Devices Used for Ground Water Quality Investigations, January 2002.

E1739-95 e1

Standard Guide for Risk-Based Corrective Action Applied at Petroleum Release Sites.

F481

Installation of Thermoplastic Pipe and Corrugated Tubing in Septic Tank Leach Fields.

f. Other.
