

CEMP-RA

Pamphlet
No. 1110-1-17

16 July 1999

Engineering and Design
ESTABLISHING A TEMPORARY OPEN BURN AND OPEN DETONATION SITE FOR
CONVENTIONAL ORDNANCE AND EXPLOSIVES PROJECTS

TABLE OF CONTENTS

	Paragraph	Page
CHAPTER 1 – INTRODUCTION		
Policy	1-1	1-1
Organization of Document	1-2	1-1
Responsibilities	1-3	1-1
CHAPTER 2 – ENVIRONMENTAL COMPLIANCE		
Policy	2-1	2-1
Operations	2-2	2-1
CHAPTER 3 – SITE SELECTION		
General	3-1	3-1
Topography	3-2	3-1
Criteria For OB/OD Area Site Layout	3-3	3-2
Noise	3-4	3-6
OB Specific Requirements	3-5	3-6
Available Facilities	3-6	3-14
CHAPTER 4 – SAFETY CONSIDERATIONS		
Safety Precautions	4-1	4-1
Physical Security	4-2	4-2
Personnel/Training Requirements	4-3	4-4
Material Awaiting Destruction	4-4	4-5
Emergency Equipment	4-5	4-5
Communications	4-6	4-6
Fire Prevention Planning	4-7	4-6
Airspace Clearance	4-8	4-8
Personnel Protection	4-9	4-8
Toxic Hazards of Certain Explosives and Munitions	4-10	4-10

TABLE OF CONTENTS

	Paragraph	Page
CHAPTER 5 – SITE OPERATIONS		
Plan Requirements	5-1	5-1
Maps	5-2	5-1
Separation Distance Requirements	5-3	5-3
Hours of Operation	5-4	5-4
Weather Restrictions	5-5	5-4
OB Specific Requirements	5-6	5-4
Maintenance of Grounds	5-7	5-4
Servicing/Close-out of Destruction Site	5-8	5-5
Documentation Requirements	5-9	5-6
Mishap Reporting and Investigation Requirements	5-10	5-6
APPENDIX A – REFERENCES		A-1
APPENDIX B – GLOSSARY		B-1
APPENDIX C – OB/OD CHECKLIST		C-1
APPENDIX D – CONSOLIDATED SHOTS		D-1
TABLES		
Table 3-1. Default Personnel Separation Distances from Aboveground Detonations		3-2
Table 3-2.A. Required Blast Overpressure Distance for Personnel for Detonating Ammunition for the Purpose of Explosive Ordnance Disposal (Metric)		3-7
Table 3-2.B. Required Blast Overpressure Distance for Personnel for Detonating Ammunition for the Purpose of Explosive Ordnance Disposal (English)		3-8
Table 3-3. Minimum Safe Distances Between RF Transmitters and Electric Blasting Operations		3-9
Table 3-4. Minimum Safe Distances Between TV and FM Broadcasting Transmitters and Electric Blasting Operations		3-9
Table 3-5. Minimum Safe Distances Between Mobile RF Transmitters and Electric Blasting Operations		3-10
Table 4-1. Danger Sign Dimensions		4-4

TABLE OF CONTENTS

	Paragraph	Page
FIGURES		
Figure 3-1. Temporary OD Area Distance Requirements		3-3
Figure 3-2. Cross-Section of Engineering Control (Tamped Earth) for Intentional Detonation		3-4
Figure 3-3. Side View – Sandbag Enclosure		3-5
Figure 3-4. Temporary OB Area Distance Requirements		3-11
Figure 3-5. Example of OE Burning Trench		3-12
Figure 3-6. Typical Surface Burning Area		3-13
Figure 4-1. Example Warning Sign		4-3
Figure 5-1. Sample of a Q-D Map for a Project Site		5-2
Figure 5-2. Sample of a Q-D Map for a Project Site with Encroaching PSD		5-3
