

CECW-EH-Y

Pamphlet
No. 1110-2-10

31 July 1994

**Engineering and Design
HYDROLOGIC ENGINEERING ANALYSIS CONCEPTS
FOR COST-SHARED FLOOD DAMAGE REDUCTION STUDIES**

Table of Contents

Subject	Paragraph	Page	Subject	Paragraph	Page
Chapter 1			Simplified Analysis for Ungaged		
Introduction			Areas	4-3	4-2
Purpose	1-1	1-1	Detailed Analysis for Ungaged		
Overview of Corps Flood Damage			Locations	4-4	4-4
Reduction Studies	1-2	1-1			
Hydrologic Engineering	1-3	1-2			
 Chapter 2			 Chapter 5		
Data Needs and Hydrologic Processes of Floods			Determining Flood Flows by Precipitation-Runoff Analysis Methods		
Overview	2-1	2-1	Introduction	5-1	5-1
Precipitation Runoff Relationship	2-2	2-2	Watershed/Subbasin Delineation	5-2	5-1
Channel Characteristics	2-3	2-6	Analysis Approaches	5-3	5-1
Flood Characteristics	2-4	2-7	Precipitation/Runoff	5-4	5-1
Frequency Analysis	2-5	2-8	Routing Concepts	5-5	5-7
			Calibration of the Model	5-6	5-9
			Verification of the Model	5-7	5-9
 Chapter 3			 Chapter 6		
Flood Studies			Determination of Flood Elevations		
Overview	3-1	3-1	River Hydraulics	6-1	6-1
Definition of the Flood Hazard	3-2	3-1	Development and Use of Rating Relationships	6-2	6-1
Formulation and Evaluation of Solutions	3-3	3-3	Steady-Flow River Hydraulics	6-3	6-2
Impact Assessment	3-4	3-4	Unsteady-Flow River Hydraulics	6-4	6-4
			Multi-Dimensional River Hydraulics	6-5	6-7
			Mobile Boundary Hydraulics	6-6	6-9
			Use of Physical Models	6-7	6-10
			Comparison of Flood Elevation Determination Methods	6-8	6-10
 Chapter 4					
Determining Flood Flows by Frequency Methods					
Overview	4-1	4-1			
Analysis for Gaged Areas	4-2	4-1			

EP 1110-2-10
31 Jul 94

Subject	Paragraph	Page
Chapter 7		
Hydrologic Engineering Requirements for Flood Damage Reduction Measures		
Overview	7-1	7-1
Without-Project Conditions	7-2	7-1
Screening of Alternatives	7-3	7-1
Reservoirs	7-4	7-1
Local Protection Projects	7-5	7-2
Nonstructural Measures	7-6	7-4
Floodplain Management Studies (FPMS)	7-7	7-5
Hydrologic Analysis Requirements Summary	7-8	7-5

Subject	Paragraph	Page
Chapter 8		
Hydrologic Engineering Studies		
General	8-1	8-1
Study Design and Management	8-2	8-1
Level of Detail/Completeness	8-3	8-1
Documentation and Reporting	8-4	8-2
Local Sponsor Coordination	8-5	8-2
Summary	8-6	8-2
Appendix A		
References		A-1
